

## Cosmetology Shop Safety Rules

1. Read manufacturer's directions carefully before using any appliances and/or chemicals.
2. Clean water, hair or any spilled liquid off the floor immediately.
3. Avoid touching two metal appliances at the same time.
4. Avoid leaving customer alone when connected to an electrical device.
5. Do not operate any appliance until you have been properly instructed in its use.
6. Place appliance cords out of traffic lanes.
7. Leave safety guard on razor at all times.
8. Report all accidents to the instructor, regardless of the nature or severity.
9. DO NOT run in shop area.
10. Keep floor area free of litter at all times.
11. Handle sharp implements, such as scissors with care.
12. Avoid all horseplay (this includes water fights) in the shop area.
13. Disconnect appliances properly and immediately after use. Use extreme caution when handling marcel irons, spring irons and stoves.
14. Replace all equipment in its proper place before leaving the shop.
15. Wash and sanitize hands between clients.
16. Labs jackets and kits are MANDATORY on lab days.
17. Clean, sanitize, disinfect and/or properly dispose of all implements, cosmetics that are used after each use.
18. Wear shoes at ALL times.
19. Lab is cleaned on a DAILY basis (each student is assigned a duty)-if sanitation is not done points will be deducted from your daily grade.
